Subject: KUNM request for interview on Gold King Mine spill - Thursday Aug 13th 8a - 9a LIVE

Hi Joe and Lisa,

We are the NPR affiliate in Albuquerque and our public health reporter Ed Williams has been in contact with you both in the last few days working to arrange for a representative of the EPA to participate in our live 1-hour call in show tomorrow morning from 8a-9a.

So far he has received no response from the EPA folks to whom his information was passed.

I just left a message on the JIC voicemail. But given that we have been reaching out to you for days with no follow up and the program on which we need your input is tomorrow, I am following up again with each of you.

Any assistance you can provide in this matter would be greatly appreciated. It is crucial that we have an EPA representative participate in the show. We will also have Senator Martin Heinrich and the NM Environment Department. I think you both understand that it is important for an EPA rep to be made available to participate in the show.

Please call me if you have any questions, I look forward to hearing from you or another EPA representative.

Sincerely,

Elaine
